NOTES

- Unplug the USB 2.0 DISPLAY ADAPTER before executing the Setup or un-installation programs.
- Suggest USB 2.0 for 'Office Application' only. Video playback is not recommended due to USB 2.0 bandwidth limitation causing imperfect video performance.
- Do not recommend to connect USB 2.0 DISPLAY ADAPTER via the external USB Hub.
- System reboot is required for the driver installation.
- Support multi-display up to three adapters for office application.

- Connect the external display device (monitor/projector) to the VGA/DVI connector of USB 2.0 DISPLAY ADAPTER before connecting to USB port of your Mac computer
- Please visit our website to update the latest driver version for the good performance.
